Core Capabilities

- IT Staff Augmentation/ Consulting Services
- Database Administration
- Database Development
- Report Development (Crystal Reports, SSRS, Cognos)
- Project Coordination/Management
- Software Development

IT Staff Augmentation

Supplementing staff can be a challenge today. We are here to lighten that load. SDTR Consulting LLC has a large database of Information Technology consultants who can provide services for small to large private and public sector clients. Our industry experience is key to filling that void. SDTR Consulting LLC supply architect level consultants exceeding expectations of any project. Our goal is to place the most reliable qualified consultants to accurately complete projects without any delays.

Software Development

Commercial Off the Shelf software may not provide the needs of an organization business process. SDTR CONSULTING LLC will satisfy the requirements this software is lacking. Based on specific requirements, Using Software-As-A-Service technology, SDTR Consulting LLC can take a vision and make it into a reality of a custom application with reporting capabilities.

Reports Development

Transforming data in a meaningful form is a goal for many organization. SDTR Consulting specialize in report and database development. This assist clients who not only want to understand the underlining data but present to upper level management a form that is easily conveyed to paper. As lead developer, SDTR Consulting LLC has performed crystal reports and SSRS services for public and private sector on several occasions. We have created over 1000 reports and created over 600 corresponding stored procedures.

Database Development and Administration

Maintaining the structure of applications rely on database development and administration. An important factor of any database is the integrity and accuracy of its dataset. We ensure upon development data is accurate, reliable, and consistent from source to destination.

Project Management/Coordination

Management of a project is key for project success. Without a skilled consultant to take a project from start to finish it will be very difficult to achieve milestones set by the stakeholders. Project Coordinator or Managers not only keep a project above schedule for completion but help the project run smoothly. SDTR Consulting LLC provide consultants with exceptional longivity record of providing project management or project coordination services to public and private sector clients.
